OVERVIEW

Mr. Chen worked for a well-known domestic telecommunications company as an engineer and one of most prestigious red-circle law firm as a lawyer. Now in NTD, his main practice areas are litigation and arbitration in the fields of patents, trademarks, unfair competition anti-trust, and trade secrets.

Mr. Chen has provided service for many world-leading companies such as Nippon Steel Corporation, Japan Display, Panasonic of Japan, and Bayer AG of Germany in litigation and arbitration over patents, trademarks, unfair competition, and license disputes in China. Also, he has rich experience in IP transaction and IP DD.

With an engineering background in information technology, Mr. Chen has comprehensive and all-round experience in various fields of intellectual property protection, especially in handling patent and other technical cases in the fields of photoelectric sensing, image processing, telecommunication, IoT, AI, vehicle design and manufacturing, and advanced materials manufacturing.
