OVERVIEW

Shi Wei obtained her master's degree in mechanical engineering and automation from Beijing University of Aeronautics and Astronautics in 2014. After graduation, she started to work as an IP attorney in the fields of mechanical engineering, automation, electromechanics and vehicle engineering. Her practice includes drafting, translating, proofreading and finalizing of patent applications, transmitting and responding to examination opinions and so on. She joined NTD in 2022 and has worked in the fields of medical devices, household appliances, laser processing equipment and vehicles since then.
